The Uniform Law Foundation (Foundation), a 501(c)(3) charitable organization, was established in 1990 to support the study, research and development, and educational activities of the Uniform Law Commission (ULC).

All Annual Campaign contributions are significant, and help to provide supplemental financial resources to enable the ULC to maintain its high standards of excellence, while continuing the important work of developing uniform and model laws which are critical to the states, businesses and citizens of this country.

All those who contribute to the Foundation's Annual Campaign can do so knowing they are supporting the important juristic work of a preeminent organization, and becoming a part of the history of American jurisprudence.
